

WRIT 305

Technical Writing

(CRN: 13984) - MWF (10:30-11:20 AM)

In this course, you will...

- **Understand** workplace writing genres, contexts, and expectations
- **Write** with clarity and precision for real-world audiences
- **Develop** skills in creating, designing, and editing professional documents
- **Visit** a Computer Science Lab, work with a research team, and co-author a technical description of the lab
- **Leave** the course with a polished job application you can tailor for internships and career opportunities
